

A GOOD GARAGE

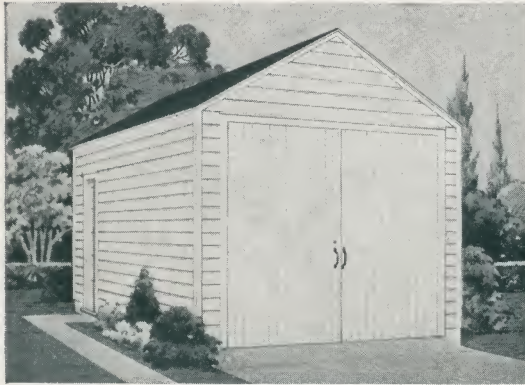

assures dividends in performance, economy and appearance of your car

When a car is left out in the open and exposed to the elements, needless deterioration will cost more in two or three years than a well constructed garage. To realize the utmost value from a car, maintain its original beauty in appearance and decrease the inconveniences and costs of motor trouble, every car owner should have a good well-built garage.

Of no less importance is the fact that the garage can be made to form an integral part and a charming addition to your property. The designs illustrated in this book were selected for their popularity and pleasing modern architectural features which permit them to match different types of homes in detail, color scheme and type of material.

The drawings which are furnished for each design are made in a clear, concise, practical manner and contain all details and information necessary to erect the building with complete understanding. If you have in mind some special design and arrangement for your garage, do not overlook the fact that we are in a position to develop the plans satisfactory to you.

We shall be glad to discuss with you at your convenience the small investment required to give your car the protection it deserves. Our long experience and building facilities are at your disposal. Call, write or 'phone.

GABLE ROOF EXTERIOR FOR PLANS A & B

GARAGE 2085

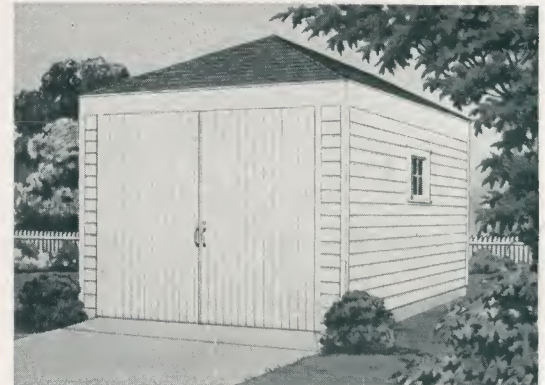

ONE CAR

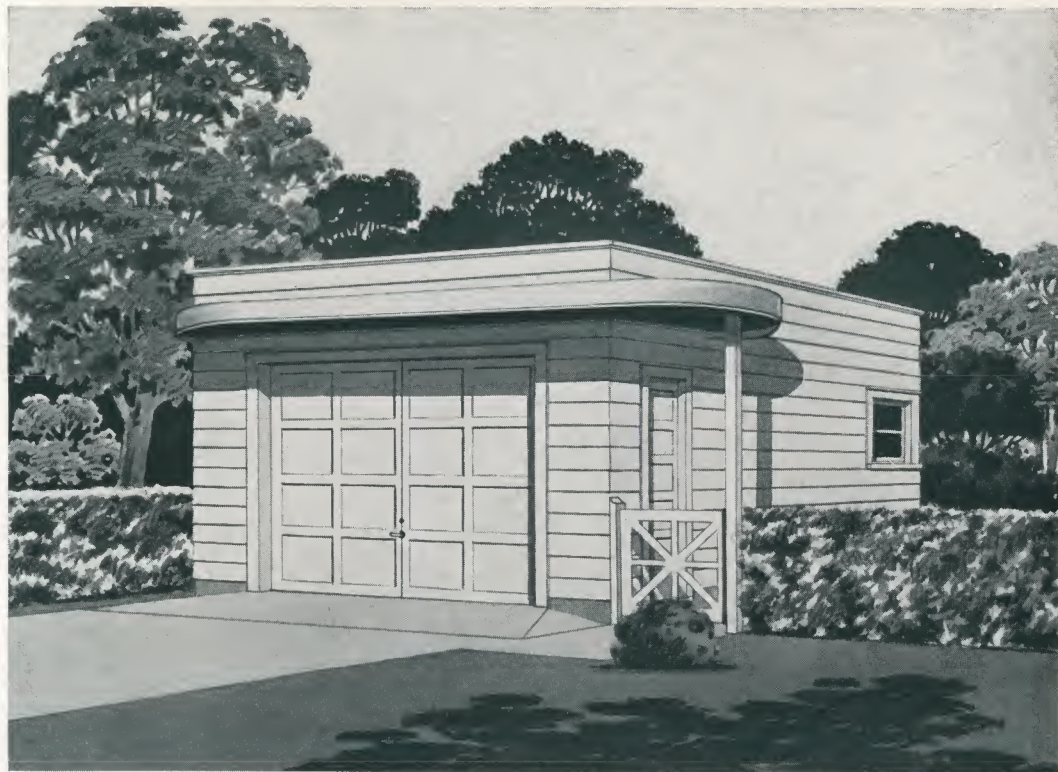

SIZES

PLANS A & C.....10 FT. x 20 FT.

PLANS B & D.....12 FT. x 22 FT.

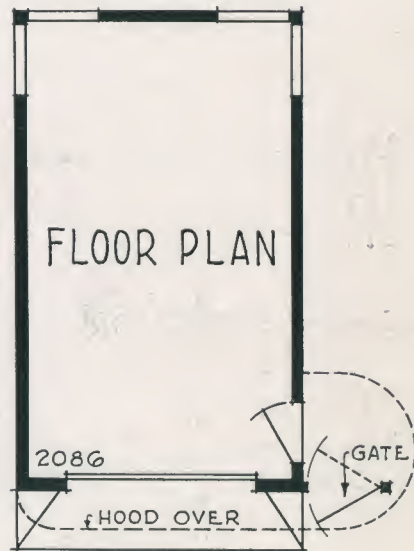

HIP ROOF EXTERIOR FOR PLANS C & D

This garage designed in the modern style is compact and simple to build. The protective hood effect in front and the corner sash are features to be noted. The low cost of construction should be considered.

PLAN B.....14 FT. x 22 FT.

For those who prefer the Gambrel roof, to match a Dutch Colonial home, this garage should appeal. While it is of ample length to accommodate any size car, sufficient side space is also provided for storage of garden tools or other equipment without inconvenience.

This two-car garage will harmonize well with any Colonial type home. Dignified in appearance and design it will add to the attractiveness of your home surroundings. The covered entrance at side is not only practical protection in stormy weather, but can be an added garden feature as well.

TWO CAR

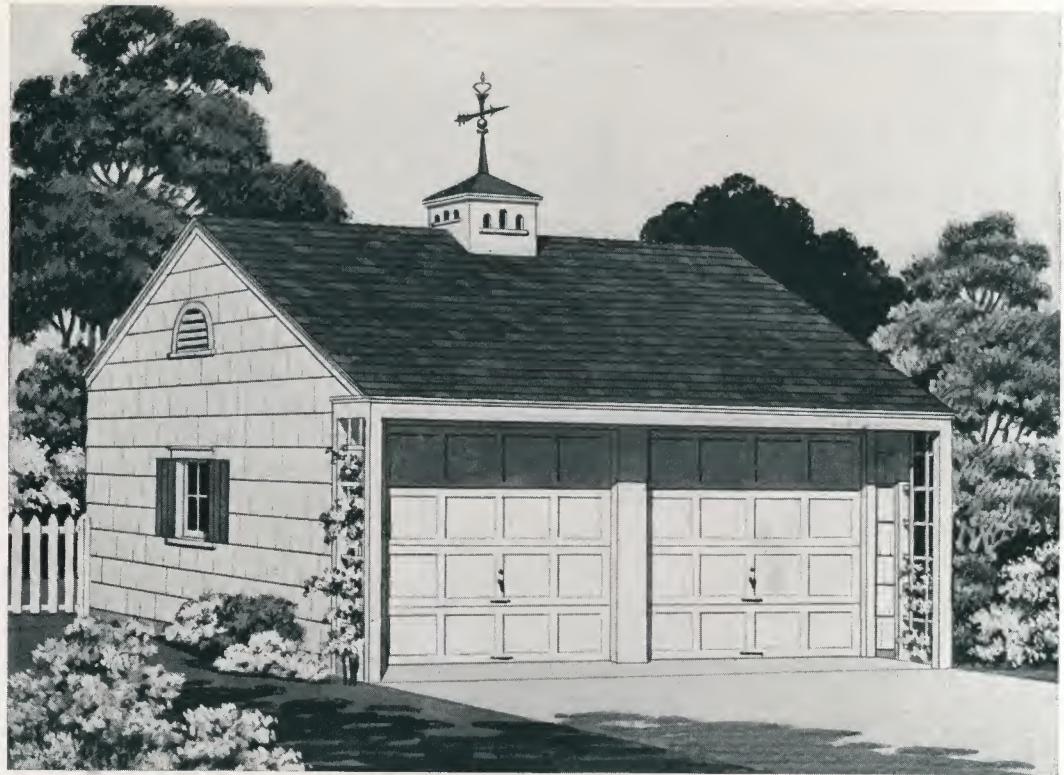

*Select the garage design
to match your home*

SIZES

PLAN A.....20 FT. x 20 FT.

PLAN B.....22 FT. x 22 FT.

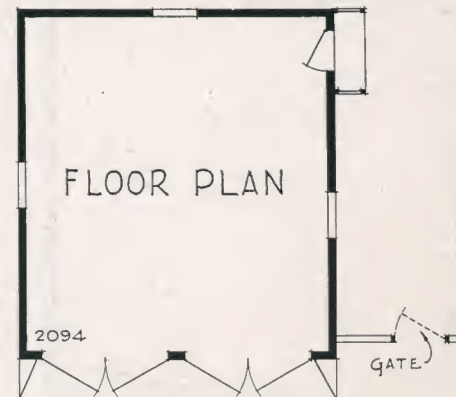

The advantages of a two-car garage are many and the small additional investment will pay big dividends in utility and convenience. The inclusion of a roof cupola, trellis work and a few shutters involves little cost, yet does much to enhance the appearance of a garage and place it above the ordinary.

This attractive garage easily allows space for two large cars with additional space left for miscellaneous storage. The space under the roof can always be used for storage of screens or storm sash. Pleasing in appearance, it is easily adapted to your home color scheme.

TWO CAR

*A well constructed garage is
insurance against car
depreciation.*

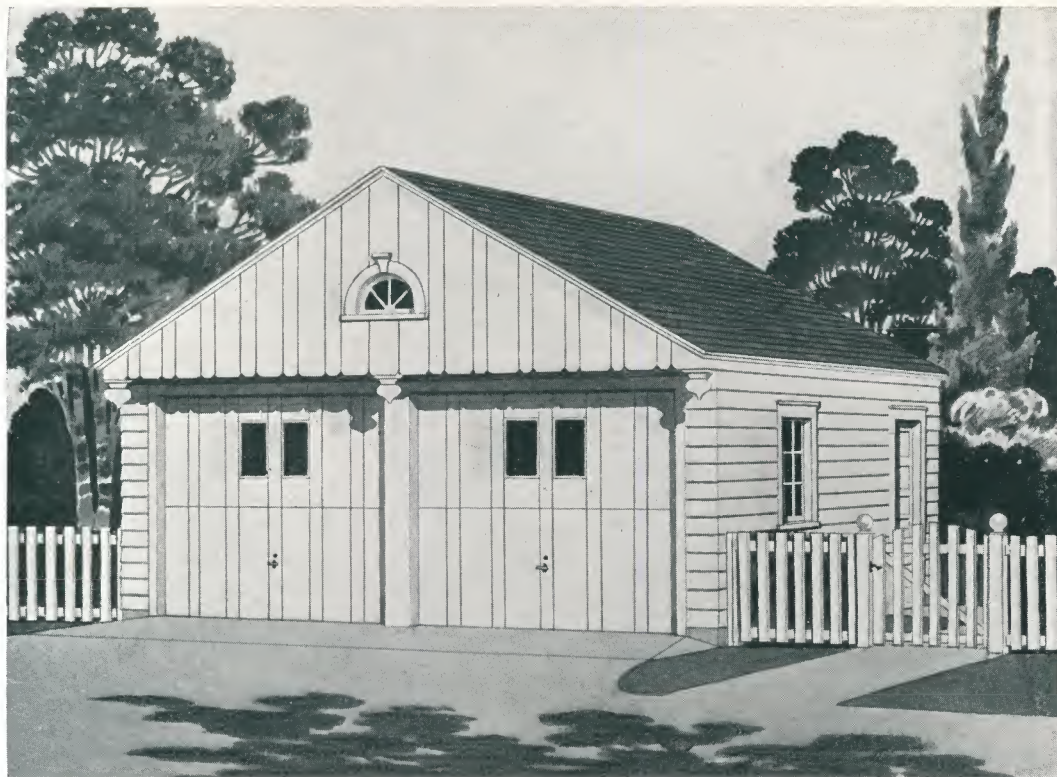

SIZES

PLAN A.....20 FT. x 20 FT.

PLAN B.....22 FT. x 22 FT.

Simple in design and economical in cost this square hip roof garage has many advantages. Modern door equipment and shingled walls make a good weathertight and warm building; white fencing, bird houses and other garden appointments add much to general appearance and value.

A distinctly Colonial type which will certainly enhance the beauty of the home which it supplements. The use of siding for the walls and vertical boards in the projecting gable makes for pleasing variation in design and gives this garage an air of distinction.

GARAGE 2096 TWO CAR

*Plans of various sizes
are offered.*

SIZES
